

Voted again by his peers as a Top Dentist in *Charlotte* magazine, Dr. Hoang Drouin of Lake Norman Cosmetic & Restorative Dentistry not only has earned the highest academic award from the Academy of General Dentistry (Mastership), but he has the natural ability to put patients at ease. They love his personable, lighthearted nature and contagious laughter.

And it's not just him. Dr. Drouin's loyal team members are known for their soft hearts and gentle touch. They can't resist calling patients just to "check in" after a procedure and sometimes show up with flowers and homemade soup.

With her outgoing personality and almost 25 years of experience, hygienist Allison connects easily with patients while providing the highest standard of care. Always smiling, patient coordinator Dianna welcomes each person to the practice with compassion and a joyful spirit. Then there's Traci,

the kind-hearted dental assistant, who tucks in patients with a warm blanket and instinctively knows what is needed without being asked.

Chris, Dr. Drouin's wife and practice manager, says, "It's a privilege to work with such wonderful people. Our team cares for each other, and that beautiful attitude overflows to our patients. We simply love what we do and who we do it with, and I think that shows."

Patients seek out Dr. Drouin's expertise, which includes skillfully performing the most complex restorations and rehabilitations as well as providing preventive care for all ages. Patients share their lives and refer their friends because they are made to feel like family.

"I'm so fortunate to experience such rich relationships," says Dr. Drouin. "Being at work is a time of connection, like having coffee with friends."
